

# CHAMPIONS OF COFFEE QUALITY, CRAFT AND CULTURE

## SUSTAINABILITY

At Peet's, we don't just make better coffee. We're on a mission to make coffee better. We are serious about doing right by the planet and its people.

We partner with Enveritas to execute 20,000 sustainability audits per year on our coffee supply chain alone. We take sourcing with impact seriously.

Since 1962, Peet's has roasted every batch of beans by hand to achieve the richest, boldest flavor and to ensure every cup is as fresh as it gets. We're here to share the love of a great cup of coffee with those who appreciate quality and seek out authentic brands.

Bring a premium national brand to your space with flexible programs designed to meet your needs and the discerning tastes of your customers. From brewed coffee to the latest innovative cold beverages, we have the perfect beverage solution for your location.

Choose from a variety of light, medium and dark roast coffees

Proudly Pouring Program: Your space, your aesthetics, our premium coffee

Vibrant evergreen and seasonal marketing

LET'S BREW SOMETHING EXTRAORDINARY!
